

CURRICULUM VITAE

Nadiia MATVIEIEVA

**Head of the Laboratory of Adaptational Biotechnology
Institute of Cell Biology and Genetic Engineering of the
National Academy of Sciences of Ukraine
148 Ak. Zabolotnogo str., Kyiv 03143, Ukraine**

29.08.1956 (Kyiv, Ukraine)
Languages: Ukrainian, English, Polish
E-mail: joyna56@gmail.com

EDUCATION AND QUALIFICATIONS

Doctor Habilitovany, "Biotechnology" (Dissertation: "Creation of plants producing biologically active compounds by Agrobacterium-mediated transformation")

Candidate of Biological Sciences (PhD), "Biotechnology" (Dissertation: "Creation of transgenic plants of the Compositae and Solanaceae families")

Higher education in biology: T.G. Shevchenko Kyiv State University, Ukraine

EXPERIENCE

Since 2009, head of the Laboratory of Adaptational Biotechnology of the Institute of Cell Biology and Genetic Engineering of the National Academy of Sciences of Ukraine

1998 - 2009 Department of Genetic Engineering, Institute of Cell Biology, Institute of Genetic Engineering, National Academy of Sciences of Ukraine

1982 – 1998 M.H. Kholodny Institute of Botany National Academy of Sciences of Ukraine

1980 – 1982 Institute of Plant Physiology of the National Academy of Sciences of Ukraine

1978 - 1980 Institute of Hydrobiology of the National Academy of Sciences of Ukraine

DIRECTION OF RESEARCH

The main interests of the research are focused on genetic engineering of plants, creation of transgenic plants and "hairy" roots, synthesis of biologically active compounds in biotechnological plants, molecular biology and biochemical study of biotechnological roots, biofortification of medicinal plants (*Althaea officinalis*, *Bidens pilosa*, *Artemisia spp*, *Ruta graveolens*, *Lemna minor*, *Tragopogon officinalis*, *Hypericum perforatum* etc), nanobiotechnology, environmental engineering, microbiology.

PROFESSIONAL MEMBERSHIP

- member of the editorial board of the journal "Cytology and Genetics"
- member of the editorial board of the journal "Pharmacological Journal"
- member of the Vavilov Ukrainian Society of Geneticists and Breeders
- member of the Ukrainian Biochemical Society

SOME PRESENTATIONS AT CONFERENCES

- International Congress on Multidisciplinary Approaches in Agricultural Sciences (ASMAC) (15-17 May 2024, Bayburt, Türkiye).

- 7th International Conference “Nanotechnology” (GTUNano2024) (7-11 October 2024, Tbilisi, Georgia).
- Twenty-Third Annual Conference YUCOMAT 2022 & Twelfth World Round Table Conference on Sintering XII WRTCS, 144. Herceg Novi, Montenegro: Materials Research Society of Serbia, August 29 - September 2, 2022
- 10th Jubilee International Conference On Radiation In Various Fields Of Research (RAD 2022) SPRING EDITION (Herceg Novi, Montenegro, 13–17.06.2022)
- 9th International Conference on Materials Science and Nanotechnology for Next Generation (Ankara, Turkey, Sep 22-24, 2022)
- International Conference on Experimental Sciences and Biotechnology (ICESB), 2021. Muğla, Turkey.
- 9th International Conference “Nanotechnology and Nanomaterials” (NANO-2021), Lviv, Ukraine
- 6th International Conference “Nanotechnology” GTUnano2021, Tbilisi, Georgia.
- World Congress on In Vitro Biology .2020, San Diego, California, USA
<https://www.cvent.com/c/express/665dffae-ba53-4799-b3cf-5c3adeb2a640>
- 4th International Conference on Natural Products Utilization: from Plant to Pharmacy Shelf , Albena, Bulgaria, 2019
- SmartBio conference, Kaunas, Lithuania, 2019
- SmartBio conference, Kaunas, Lithuania, 2018
- 3rd IPFS International Symposium, Fuzhou, China, 2018
- SmartBio conference, Kaunas, Lithuania, 2017
- Agrobiodiversity for improving nutrition, health and life quality, Nitra, Slovak republic, 2015
- Plant physiology and genetics – Achievements and challenges. Sofia, Bulgaria, 2014
- Plant genomics and biotechnology. Kyiv, Ukraine, 2013
- Ecological Engineering and Environment Protection. Sofia, Bulgaria, 2013
- Biotechnology and plant breeding. Perspectives towards food security and sustainability”. Radzikow, Poland, 2012

GRANTS

- NASU grant "Development of a pharmaceutical composition of bioflavonoids with phlebotonic and anti-inflammatory properties", 2021, supervisor
- MES grant of the joint Ukrainian-Belarusian competition "Development of a method of obtaining active pharmaceutical ingredients with anti-inflammatory and antioxidant activity based on wormwood root biotechnology", 2021-2022, supervisor
- Personal Grant for conducting scientific research in Slovakia, provided by the Slovak agency SAIA "Comparative study of biological active compounds content in Asteraceae family "hairy" root cultures and evaluation of their using as a raw material for medicine and cosmetology"(2018).
- Study of the molecular bases and physiological features of adaptation to abiotic stresses on the example of Antarctic plants (SFFR grant), supervisor
- The development of biotechnological platform for obtaining of natural and recombinant plant compounds with medicinal properties". Ukrainian-Belorussian project (2016-2017) between ICBGE NASU and Central Botanical Garden of NAS of Belarus (SFFR grant), supervisor
- Studying peculiarities of antioxidant protection system in transgenic plants with ifn-alfa 2b gene under the phytopathological infection effect conditions as the biotic stress model". Ukrainian-Czech project (2014-2016) between ICBGE NASU and AND Institute Of Experimental Botany Academy Of Sciences Of The Czech Republic (NASU grant), supervisor
- Using of natural and synthetic growth regulators for seed germination" Ukrainian-Polish Joint Research Project (2015-2017) between ICBGE NASU and Plant Breeding And Acclimatization Institute - National Research Institute in Radzikow, Poland (NASU grant), supervisor
- Research of nuclear and chloroplast genes as markers for DNA barcoding of plants (Grant of MES-National Antarctic Center of Ukraine), supervisor
